

CUSTOM MEDIA

“Whether it’s a technical drawing or a full-blown interactive virtual environment, TTS can provide your workforce with effective, visual learning aids.”

Did you know studies from Ohio State University have shown that only 10% of information received through traditional, lecture-based methods is retained 3 days later? That’s no way to learn!

Info Graphic

Here at TTS, we believe technological advances in media play an enormous role in training. We create three-dimensional models, virtual worlds, animations, and vibrant illustrations to keep the user on their toes and enthused to learn. Users are transformed from observers to participants, giving them the power to see as well as do.

Our thoughtful visual aids help the learner process and retain information much faster and more reliably than the boring, traditional methods of teaching. TTS offers the following visual solutions:

Valve Cut-Away

- Simulations/ Virtual Procedures
- UI/UX Design
- Animations
- 3D Models
- Illustrations
- Technical Drawings
- Auto CAD Models
- Web Design
- Motion Graphics
- Logo Design
- Info Graphics
- Website Design
- Print Design

Whether it’s a technical drawing or a full-blown interactive virtual environment, TTS can provide your workforce with effective, visual learning aids. Let us empower your business with today’s greatest tool, technology.
