

LEARNING MANAGEMENT SYSTEMS (LMS)

“Like good friends, our team works closely with each client to guarantee the learning solution meets their training needs.”

Did you know TTS implements custom learning management systems for some of the largest corporations in the world? Supporting 5,000 plus users, we are quickly becoming the industry frontrunner in the eLearning field. Whether it’s implementing learning paths and competencies, programs, or skill-specific qualifications, our creative team and programming experts skyrocket learning management systems to a whole new level.

Foundation LMS Site

TTS is a trusted Totara partner, which allows us to blend our years of experience with a robust open-source system. We believe customization is not only important, but the key to ensuring that your vision becomes a reality. The phrase “that can’t be done” is never our answer. We understand your company’s branding and cohesiveness is important, which is why our Graphic Artists and Programmers create customized themes that are personalized for each client.

Our programmers take Totara’s custom report builder one step further by offering fully customizable reports, ensuring that you receive the full coverage of your needs.

The implementation and design of your Totara powered LMS will include:

Installation

- System permissions
- User authentication and registration methods
- Role archetype settings
- Language customization
- Audience management
- Hierarchies framework
- Repository management
- Migrations and upgrades
